

MARLBORO GRAND PRIX OF MIAMI

THE PLACE: Miami, Florida
THE DATE: Sunday, March 5, 1995
THE COURSE: 13-turn, 1.87-mile street course along Biscayne Blvd. and Miami waterfront.

ABOUT THE RACE: The first race of the season will put teams, drivers and cars through a tough new test. Straightaway speeds are likely to top 170 mph, while tight turns will stress the handling capabilities of the new '95 cars. As on any street course, tire wear is critical and passing will be extremely difficult through most sections of the course.
